EDUCATION

B.Tech in Computer Engineering - XYZ University, Ahmedabad

2022 to 2026 | CGPA: 8.2 / 10

TECHNICAL SKILLS

Programming Languages: Python, C++, Java

AI/ML: Machine Learning, Deep Learning, Scikit-Learn, Pandas, NumPy, Matplotlib

Tools: Git, GitHub, Jupyter Notebook, VS Code

Databases: SQL, MySQL

Web: HTML, CSS

PROJECTS

1. Student Performance Prediction System

- Built a Machine Learning model using Scikit-Learn to predict student grades.
- Achieved 91% accuracy using Random Forest Classifier.
- Used Pandas and NumPy for data preprocessing and Matplotlib for visualization.

2. Spam Email Classifier

- Built a Naive Bayes classifier to detect spam emails with 94.5% accuracy.
- Used NLTK for text preprocessing and Scikit-Learn for model training.

CERTIFICATIONS

- Machine Learning Specialization - Coursera (Andrew Ng)
- Python for Data Science - NPTEL
- Deep Learning with TensorFlow - Udemy

ACHIEVEMENTS

- Ranked Top 15% in Kaggle Titanic Survival Prediction competition
- Won 2nd Prize in college-level Data Science Hackathon 2024
- Solved 150+ problems on LeetCode
